Preamble

The **Ecological Party of Uganda (EPU)** is a fully registered political party since **13th August 2009**, affiliated to **East African Greens Federation (EAGF)**, **African greens Federation (AGF)** and **Global Greens (GG)** where the main six principles are; Ecological wisdom, Participatory democracy, Social Justice, Respect for biodiversity, None violence and Sustainable development presents this **Manifesto** as a bold and revolutionary plan to rebuild Uganda on the principles of justice, sustainability, dignity, and shared prosperity.

For too long, Uganda has been held hostage by the politics of greed, corruption, and environmental destruction. The ruling elite has enriched itself at the expense of ordinary citizens, while public institutions decay, youth remain unemployed, and natural resources are plundered without accountability

Under the visionary leadership of Al-Hajj Nsereko Muhammad, the EPU stands as a people's movement for renewal, determined to replace oppression with opportunity and ecological collapse with sustainable development.

We commit to a Uganda where:

- Justice is not for the few but for all.
- Prosperity is shared by every citizen.
- Governance serves people, not politics.
- Nature and humanity coexist in harmony.
- Respect for diversity (Culture, Ecosystems, Perspectives) is advocated.
- Sustainability of the present generation is not at the cost of the future generations to meet their own needs.

Governance and Fiscal Reform Chapter

Reforming Government Institutions and Eradicating Corruption

Corruption is Uganda's deepest wound. EPU will lead a moral, institutional, and technological revolution to uproot it permanently.

Step-by-Step Institutional Reforms

- 2. Independent Anti-Corruption Authority (IACA):** merge all anti-graft bodies into a single, non-presidential entity.
- 3. Digital Governance & Public Ledger:** blockchain-powered systems for procurement, payroll, and licensing.
- 4. Citizen Accountability Councils:** local watchdogs to oversee projects and budgets.
- 5. Judicial and Public Service Clean-Up:** regional anti-corruption courts, lifestyle audits, and merit-based hiring.

Six-Step Debt Recovery Mechanism

5. **Transparent Budgeting**: publicize all budgets and create People's Budget Forums.

Message of Appreciation from the President of the Ecological Party of Uganda (EPU)

Together, We Are Planting the Seeds of a New Uganda.

Fellow Ugandans, members of the **Ecological Party**, and all friends of our noble cause

I extend my deepest appreciation to every man and woman who continues to contribute selflessly to the struggle for a just, peaceful, and sustainable Uganda.

Your commitment whether through ideas, finances, signatures, or mobilization is the lifeblood of our movement. You have chosen courage over comfort, truth over fear, and service over selfishness. You are the proof that Uganda's destiny belongs not to a few, but to the many who believe in change.

The Ecological Party of Uganda was founded on a vision that our land, our people, and our future can flourish together. It is not an easy road, but with your faith, we are turning despair into determination, and dreams into action.

I salute our district coordinators, youth volunteers, women leaders, farmers, students, and professionals who are standing firm in this historic moment. You have demonstrated that patriotism is not about slogans, but about sacrifice and stewardship.

As your President, I promise that our collective struggle will not be in vain. Together, we are laying the foundation for a clean government, a green economy, and a dignified nation.

Let us remain united, disciplined, and visionary for the dawn of a new Uganda is within reach.
